Integration on Two Levels

- ◆ **Psychology and Spirituality.** Dr. Progoff was at the vanguard of psychology in advocating the importance of spirituality as a necessary component of psychological growth. He stated that developing the *Intensive Journal* method

*"fulfilled a goal of holistic depth psychology to provide an integrative method by which the psychological and spiritual can be experienced as two sides of the same coin."*¹

- ◆ **Theory and Practice.** The *Progoff* methodology consists of an integrated package, containing the theoretical basis for psychological and spiritual growth, combined with its practical implementation through the *Intensive Journal* method.

"The deep presence and listening of a Spiritual Director can assist us to be attuned to God's grace within and discover the unique life and sense of future directions we experience. I have found the Progoff Intensive Journal method to be an excellent companion in this process of Spiritual Direction."

Evelyn Wemhoff, MA
Spiritual Director, Keizer, OR

Implementing the *Progoff*™ Methodology Through the *Intensive Journal* Process

The *Progoff*™ methodology is designed to further the processes of growth by helping people connect with the movement of their lives and strengthen their inner capacities for self-development.

***Intensive Journal* Workbook: Mirroring the Growth Process**

The structure of sections and corresponding writing exercises in the *Intensive Journal* workbook mirror the subjective process taking place in personality development. Designed with minimal terminology, these procedures provide the means for moving directly into the inner process and drawing forth emotions and experiences to make them accessible and tangible for further development.

***Journal Feedback*™ Technique: An Active Dynamic Process**

Structured as an active and evocative instrument, the *Intensive Journal* workbook helps participants generate energy and momentum to propel them forward through cumulative ongoing entries.

Through the *Journal Feedback*™ process, participants avoid self-conscious analysis and preconceived ways of thinking to overcome blockages and foster breakthroughs. Issues are viewed from different angles to realize connections and to create integrations of awareness.

Dr. Progoff's Philosophy

*"... the net result of modern psychology has been to reaffirm man's experience of himself as a spiritual being."*²

*"The Intensive Journal work is indeed a type of prayer and meditation...in the midst of the actuality of our life experiences."*³
