

Progoff™ Program for Ministry Development

Intensive Journal® Method for Experiential Growth

"The ultimate task of psychology is to re-establish a person's connection to the sustaining and creative forces of life...through an experience of meaning and spiritual authenticity in the inner life."

Ira Progoff, Ph.D.

Program Overview

The Progoff™ methodology provides your ministry staff with an integrated system for psychological and spiritual growth.

Created by Dr. Ira Progoff, a depth psychologist and accomplished author, the *Intensive Journal* program provides a practical way for your ministerial staff to grow personally and professionally, and offers an excellent resource for congregations they serve. Leading spiritual centers, seminaries, and universities have endorsed and sponsored our program over our 40-year history.

Using writing as a means for accessing personal experiences and emotions, the deepening atmosphere and unique structure of the *Intensive Journal* exercises provide the opportunity for profound inner experience.

A Tool For Clergy Self-Care

"I encourage you to attend a Progoff workshop...I found the workshop to be a wonderful time to pull together the ragged edges of my life. If you can't attend a workshop, get a copy of Progoff's book At a Journal Workshopfor some of you this discipline will open many doors to your inner life."

Integration on Two Levels

- ◆ **Psychology and Spirituality.** Dr. Progoff was at the vanguard of psychology in advocating the importance of spirituality as a necessary component of psychological growth. He stated that developing the *Intensive Journal* method

*"fulfilled a goal of holistic depth psychology to provide an integrative method by which the psychological and spiritual can be experienced as two sides of the same coin."*¹

- ◆ **Theory and Practice.** The *Progoff* methodology consists of an integrated package, containing the theoretical basis psychological and spiritual growth, combined with its practical implementation through the *Intensive Journal* method.

Implementing the *Progoff*™ Methodology Through the *Intensive Journal* Process

The *Progoff*™ methodology is designed to further the processes of growth by helping people connect with the movement of their lives and strengthen their inner capacities for self-development.

***Intensive Journal* Workbook: Mirroring the Growth Process**

The structure of sections and corresponding writing exercises in the *Intensive Journal* workbook mirror the subjective process taking place in personality development. Designed with minimal terminology, these procedures provide the means for moving directly into the inner process and drawing forth emotions and experiences to make them accessible and tangible for further development.

***Journal Feedback*™ Technique: An Active Dynamic Process**

Structured as an active and evocative instrument, the *Intensive Journal* workbook helps participants generate energy and momentum to propel them forward through cumulative ongoing entries.

Through the *Journal Feedback*™ process, participants avoid self-conscious analysis and preconceived ways of thinking to overcome blockages and foster breakthroughs. Issues are viewed from different angles to realize connections and to create integrations of awareness.

Dr. Progoff's Philosophy

*"... the net result of modern psychology has been to reaffirm man's experience of himself as a spiritual being."*²

*"The Intensive Journal work is indeed a type of prayer and meditation...in the midst of the actuality of our life experiences."*³
