Practical System to Increase Your Effectiveness

Created by psychotherapist Ira Progoff, PhD, the *Intensive Journal* program is an integrated system using writing exercises to help you develop professionally as a scientific, technical and medical (STM) writer. Our process is based upon Dr. Progoff's pioneering work in developing his theories of human development in the area of holistic depth psychology.

At our experiential workshops that are held nationwide, certified leaders guide participants step-by-step through the exercises with the protection of total privacy. Since 1966, our program has helped 175,000 people lead more meaningful lives.

You will learn unique ways to help you:

- Deal more effectively with workplace situations;
- Increase interpersonal communication skills;

- Reassess how to develop further your professional career;
- Stimulate creativity;
- Reduce stress and prevent burnout.

Our program can help you clarify and develop your most precious resource--your ability to work effectively in the fast-paced 21st century work environment while maintaining a healthy perspective.

The *Intensive Journal* method is a tool to use throughout your career as an STM writer.

Implementing the *Progoff* Methodology Through the *Intensive Journal* Method

The *Intensive Journal* method, based upon Dr. Progoff's unique approaches for self-development, has a solid foundation in theory and approach. Some of the method's unique features are:

***Intensive Journal* Workbook: Mirroring the Growth Process**

The structure of sections and corresponding writing exercises in the *Intensive Journal* workbook mirrors the subjective process of perceptions and thoughts taking place inside oneself. Designed with minimal terminology, these procedures provide the means for moving directly into your inner process and drawing forth emotions and experiences to make them accessible and tangible for further development.

***Journal Feedback* Technique: An Active Dynamic Process**

Through the *Journal Feedback* process, participants avoid self-conscious analysis and preconceived ways of thinking to overcome blockages and foster breakthroughs. Issues are viewed from various angles to realize connections and to create integrations of awareness. Structured as an active and evocative instrument, the *Intensive Journal* workbook helps generate energy and momentum to move forward through cumulative ongoing entries.

Inner Development: Evoking Your Potential

Focusing on inner development, where the most penetrating insights are generated, the *Intensive Journal* method provides an integrated system for dealing with issues through direct experience. Certified leaders guide you step-by-step through the method in a contemplative atmosphere.

Non-judgmental and non-analytical approaches further the psyche-evoking process. You become immersed in your own growth, drawing forth your unique potential and unfolding life process.

Whole-Life Process: Greater Perspective and Safety

Progoff's "whole-life" approach provides important benefits of perspective and safety. Greater awareness about a wide range of life experiences creates a foundation for making decisions. Issues can be viewed in a larger context and become more manageable. Using *Progoff* techniques allows issues to develop naturally, protecting you from premature judgments.

Dr. Progoff's Philosophy

*"The method provides an indirect approach to solving our life problems...we step back and move inward and meet them at a deeper level."*²

*"The Intensive Journal method is designed...to serve as a flexible means of objectifying the organic process by which the growth of personality proceeds."*³

*"People become sensitive to the elusive threads of their inner lives when they have a definite way of working with them."*⁴

- Reflect on work-related issues from various viewpoints.

Reconnect with Your Commitment to Writing

- Reconnect with the underlying reasons that you entered the STM writing profession.
- Obtain renewed energy, vitality and sense of purpose; discover new interests and ways to view your profession.

Foster Relationships in the Workplace Environment

- Improve communication and interpersonal skills; become better able to listen to and relate to other professionals.
- Learn techniques to deepen understanding as a way to build bridges in your relationships with colleagues.

Stimulate Your Productivity

- Stimulate creative and intuitive capacities ; gain access to a rich source of knowledge for developing new insights.
- Work through personal issues to allow for greater focus and enhanced relationships in the workplace.

Develop Your Career Path

- Gain perspectives influencing the direction and continuity of your career while developing new goals and opportunities.
- Identify skills and interests for becoming more productive.

Reduce Stress and Prevent Burnout

- Work through workplace-related issues and personal conflicts so the professional environment becomes less stressful.
- Resolve issues and make sense of your present work situation to build momentum and prevent burnout.

Philosophy of Ira Progoff, PhD

"Often, the body becomes the spokesman for a profound wisdom and guidance that relates to the whole conduct of a person's life...the Intensive Journal method enables us to draw into sharper focus those aspects of our physical life that require our attention."⁵

"The Journal Feedback method...achieves its results by bringing about a multiplying effect within the psyche. Its impact is cumulative...to carry the person forward to the next step of growth in his life."⁶

Dr. Progoff Defines His Work in Holistic Depth Psychology

"I refer to my own work as holistic depth psychology. Holistic suggests the qualitative evolution of people that takes place when all of their experiences come together. As this integration occurs, there is an improvement in the quality of people's lives in that the process of becoming who they truly are deepens.

"The focus of my work has been to provide methods which will enable people to work continuously in their lives. It gives an inner perspective to guide them through transitions, evoking creative potentials and drawing forth new sparks of Spirit as they move toward becoming whole persons...I developed the Intensive Journal process in the mid-1960s to provide a structured way for people to work continuously to become whole persons."⁷

Endorsements BY STM Writers

"The *Intensive Journal* method has been an invaluable benefit to me in developing my professional life, providing a place and a practice for reflecting on my career in the context of my whole life, bringing balance when responsibilities threatened to become all-consuming, and serving as an antidote to burn-out. It has provided techniques to navigate work-place conflicts; consider the pros and cons of career changes; and perceive the deeper meaning of my work and its social value. Without this marvelous tool, my life would not have the depth and richness the *Intensive Journal* process has provided—and continues to provide—as a life-long enhancement for working and living well."

C Kelley Williams

Managing Editor Emeritus, *International Journal of Gynecology and Obstetrics*;
Former President, American Medical Writers Association

"I never expected to become a medical publishing professional, and yet here I am with more than 15 years' worth of experience in the field. Learning the *Intensive Journal* method has given me an indispensable tool for processing, and ultimately appreciating, how seemingly disparate interests and passions have woven together throughout my life to manifest in the unique ways that they have, including becoming an editor in the field of neurology.

"Through my work in the *Intensive Journal* process, I have gained a greater sense of peace and even awe about the arc of my professional life in the context of my life as a whole. The *Intensive Journal* method has helped me achieve clearer insight into the value to both myself and to the larger world that my career path in medical publishing has fostered. It has helped me better appreciate the ways my work contributes value to the medical community and ultimately has positive impact on patient care."
